State of Wisconsin Department of Corrections

July 14, 2017

Sheriff Gregory Herrick Clark County Sheriff's Department 215 E. 5th St. Neillsville, WI 54456

Re: 2017 Annual Jail Inspection

Dear Sheriff Herrick:

On June 13, 2017, the annual inspection of the Clark County Jail was conducted pursuant to WI Statute 301.37(3). The inspection compared the facility and its operation to applicable state statutes and Department of Corrections' Administrative Code Chapter DOC 350. This report summarizes my findings, including the progress made following the 2016 inspection, any statute or administrative code violations, physical plant and maintenance issues, and an overall summary of facility operations. The inspection worksheet document is attached to this report and includes detailed inspection results.

On the day of the inspection, there were 58 inmates incarcerated in the facility. There were 7 inmates housed in from other jurisdictions. On the day of the inspection, the total inmate population under the authority and responsibility of the sheriff's department was 65 inmates.

Progress following the 2016 Inspection

- Guard 1 cell checking was implemented. Staff report having some issues with some of the buttons not registering. Staff report on the day of inspection that they were following up with Guard 1 to fix the issue.
- The showers were resurfaced. The base on the showers is still being replaced at the time of inspection.
- Pushed forward with PREA awareness with posters, information sheets and videos for inmates in both English and Spanish.
- Utilized the Columbia Suicide questionnaire prior to booking.

Summary of Jail Operations

I met with the Clark County administrative, security, healthcare, and foodservice staff to conduct the annual inspection. The site visit included a review of facility records and documentation as well as a walkthrough of the detention areas. The attached checklist details my findings as they relate to the Department of Corrections Administrative Code Chapter DOC 350 and applicable State Statutes.

In summary, the overall appearance of the jail was in satisfactory condition. It is apparent that both staff and inmates are held accountable for the cleanliness of the facility. After a walkthrough of the detention areas, there were no repetitive complaints from inmates regarding conditions of confinement or staff supervision. Staff are to be commended for the overall positive climate and their observed professional interaction with inmates.

Department Expectations following the 2017 Inspection include:

- Provide Mental Health for inmates 20 hours per week
- Provide mental health for staff after serious incidents and as requested.
- Have wireless bar code scanner working properly for medications.
- •
- Provide new computers in the Sgt.'s office to review
- Have the Guard 1 cell checker working properly.
- New computers for the law library.
- Have maintenance complete the tile replacement along the baseboard in the showers.
- Work with Neillsville Memorial Hospital to simplify medical clearance for inmates.

Violations:

The following violations were documented during this inspection:

- 350.18 (8)-Key Control.
 - The Clark County Jail has a policy in place stating "All issued keys shall be inventoried and accounted for on each shift".
- 350.18 (1) Suicide watches are past the 15 minute checks. During the inspection process it was reported that the Guard 1 system is having some issues registering rounds.
- 350.17 (3)- The Clark County jail Policy manual does not reference that immediate notification to a designated supervisory staff member if an inmate is identified as a suicide risk.
- 350.11 (18) During the inspection it was witnessed that garbage containers were not being covered in the kitchen.
- 350.24 **Discipline** A sample of records show that the staff members from the Clark County jail are administering discipline without following procedure. The samples provided do not show that the inmates were allowed the opportunity to make a statement about the alleged violation per code requirement. The samples provided also indicate that a supervisor has not reviewed the discipline as code requires.

Miscellaneous Issues:

The following list summarizes observed areas of concern:

- 350.18(7) Documentation was provided that staff are completing door and lock inspection monthly.
- 350.17 (2)-A review of the documents show that Supervisors have not been signing off that intake screenings are being reviewed.
- 350.17 (6) The Clark County Jail policy does not specifically state "on-site face to face is required by a qualified mental health provider to remove an inmate from suicide watch.
- 350.25 (1) The separation and clarification of Administrative segregation and Administrative confinement from the policy manual.
- 350.28 (1) The Clark County Jail needs to have definitions in place to define what qualifies an inmate to be indigent.

Approval

The Clark County Jail is approved by the Department of Corrections for the secure detention of adult offenders with the maximum capacity of 126. This approval is contingent on the continued compliance with all applicable state statutes and administrative codes.

I wish to express my appreciation to Captain Englebretson and his entire staff for their courtesy and cooperation during my review.

If you or any of your staff have any questions regarding the inspection results summarized in this letter or if I may be of any assistance regarding correctional matters, please contact me.

Sincerely,

Detention Facilities Specialist

- (b) If the jail does not have medical staff on duty at the time of a transfer, the jailer or his or her designee shall complete as much of the form as possible and provide it to the receiving institution intake staff at the time of the transfer. The jailer shall ensure that all of the following occur within 24 hours after the transfer.
 - The jail medical staff, the prisoner's health care provider or, if the prisoner does not have a health care provider, a health care provider under contract with the jail reviews the form provided to the receiving institution at the time of the transfer.
 - The medical staff or health care provider reviewing the form corrects any errors in the form and includes in it any additional available 2. information.
 - The medical staff or health care provider reviewing the form transmits the updated form or the information included on the form by the quickest available means to the receiving institution intake staff.
- (bm) Jail medical staff need not complete the form if the jailer or his or her designee provides a copy of the prisoner's complete medical file to the receiving institution intake staff at the time of the transfer.
- (f) Receiving institution intake staff may make a health summary form available to any of the following:
 - 1. The prison's or jail's medical staff.
 - 2. A prisoner's healthcare provider.
 - 3. In the case of a prison or jail that does not have medical staff on duty at the time of the transfer, a health care provider designated by the department or the jailer to review health summary forms.
 - 4. In the case of a jail that does not have medical staff, a person designated by the jailer to maintain prisoner medical records.
